ritchai2002@gmail.com | Bangkok Thailand 10310 | (+66) 61-535-1383

As a software developer, I love creating web applications. I focus on both the front-end and back-end aspects of development. I enjoy learning new things and taking on challenges every day. I dedicate my time to improving my skills and finding new solutions to problems. With my technical background in back-end work and my passion for front-end design, I'm excited to bring my creativity and problem-solving skills to any team or project.

## PROJECT

**Real-Time Document Collaboration Platform**
Technologies: Next.js, TypeScript, Tailwind CSS, Liveblocks, Clerk, Sentry

- Developed a collaborative platform for creating and editing documents in real-time. Integrated **Google Login** with **Clerk** for secure access, enabling users to edit together instantly using **Liveblocks**. Included document management features like sharing, permission control, and live updates.

**Full-Stack Social Media**
Technologies: React, Tailwind CSS, Next.js, Prisma, MongoDB, NextAuth

- Designed a social media clone with essential features like user registration, posting, following, and feed management. Integrated **NextAuth** for secure authentication and **MongoDB** with **Prisma** for efficient data handling. Tailored a responsive UI with **Tailwind CSS** for an optimized cross-device experience.

**AccountExpense - Personal Finance Management System**
Technologies: Node.js, MySQL, Express, EJS, JWT, Multer

- Created a personal finance system for managing accounts, expenses, and categories. Implemented secure **JWT-based login** and data filtering by month, year, and category. Enabled attachment of transaction slips using **Multer** for expense verification, helping users gain better financial insights.

## EDUCATION

**Bachelor of Engineering in Computer Engineering**
Suan Sunandha Rajabhat University
Expected Graduation: 2025

## CERTIFICATIONS

**Advanced React**
Issued by Coursera | Obtained 1 Sep 2024

- Focused on advanced state management, React hooks, and performance optimization.

## SKILLS

**Programming Languages**: HTML, CSS,  JavaScript, Typescript, PHP, Python, SQL

**Frameworks/ Libraries**: React, Node.js, Bootstrap, Tailwind CSS

**Database**: MongoDB, MySQL

**Tools & Platforms:** Git, GitHub, Figma, Photoshop, Visual Studio Code
